**THE BUSINESS OF HEALTH CARE: GOING GLOBAL**

**March 21**
Alumni may register at a discount for The Center for Health Sector Management and Policy’s fifth premier health care industry impact conference, “The Business of Health Care: Going Global,” which will feature UM President Julio Frenk, GuideWell and Florida Blue President Patrick Geraghty, and Medical Tourism Association President Renee-Maria Stephano as keynote speakers on March 21.

The conference will focus on the globalization of health care as the industry landscape is increasingly influenced by multinational health care service providers, global biomedical and biotechnology firms, multi-country joint ventures, medical tourism, and advances in technology. Visit the conference website.

**NO BIG SECRET: OCEAN IMPACTS FROM CLIMATE CHOICES**

**March 30**
The 2016 Sea Secrets lecture series, presented by the University of Miami (UM) Rosenstiel School of Marine and Atmospheric Science and The Ocean Research and Education Foundation, invites the South Florida community to meet distinguished scientists and explorers to learn more about our blue planet – from unraveling the mysteries of hurricanes and climate change to understanding how killer whales think and feel, and so much more.

On March 30, Marcia McNutt, Editor-in-Chief at Science Magazine, will give a lecture on climate warming and its impact on our oceans. Earth’s oceans are absorbing the majority of the CO2 and heat from climate warming. The resulting acidification and warming of the oceans are
